

Maher Water Corporation

New!

Super-fast RO just approved for use in Wisconsin!

K5 Drinking Water Station

Reverse osmosis goes to a whole new level with the K5. **No more waiting** for your glass to fill... water from this RO flows up to **two times greater** than any other drinking water system. That's **maximum water efficiency** that practically knocks your glass out of your hand! All this while protecting against a wide variety of contaminants, providing **safe, clean drinking water** for your home or business.

\$1,450 installed
tax included

Never pour water into your coffee maker again!

FreshStart Coffee System

It's not just the beans... **great coffee starts with great water**. The FreshStart Coffee System **connects to your water supply**, so clean, fresh water is instantly available every time you are ready to make coffee. The one-piece blow molded cabinet is **rust-, scratch-, dent- and stain proof**. A beautiful and state of the art must-have for the ultimate kitchen!
